İBRAHİM BAŞAR YARGICI

JUNIOR SOFTWARE DEVELOPER – STUDENT

I work as an Android developer at ING while pursuing a bachelor's degree in computer engineering. I love learning about new technologies and implementing them. Android, Flutter, Spring-Boot, and Unity are the tech stacks that I have previously worked on. In addition, I am participating in communities in a variety of ways, including live streaming and co-hosting.

WORK EXPERIENCE

Android Developer – Part Time
ING (International Netherlands Group)   *11/2021 - Present*
I am working on developing the new mobile application for ING using cutting-edge libraries using MVVM with Clean Architecture.

- Multi–Repo Approach
- Jetpack libraries such as HILT and Navigation component

Information Technologies Intern
Middle East Technical University   *08/2021 - 09/2021*
Worked on finding and adapting the most compatible and robust monitoring software to the system to monitor the agents.

- On Linux OS, Multi Router Traffic Grapher and CACTI softwares are containerized on Docker to run over servers.
- Tools: Docker, MRTG

COURSES AND CERTIFICATIONS

Flutter Hackathon 2021
Deeplearning.ai   *02/2021*

AI For Everyone
Deeplearning.ai   *12/2020*

Crash Course on Python
Google   *12/2020*

Introduction to Programming With Java
BTK Academy   *05/2020 - 08/2020*

Android Mobile Application Development with Kotlin Basic Level And Advanced Level
BTK Academy   *05/2020 - 08/2020*

Introduction to Digital Game Development with Unity
BTK Academy   *05/2020 - 08/2020*

Educational Games with Unity
BTK Academy   *05/2020 - 08/2020*

ML Days Study Jam
Deep Learning Turkey – Global AI Hub   *05/2020*

Facebook DEVC Ideathon Certificate
Facebook   *01/2020*

English Preparatory Program Certificate
Istanbul Arel University   *05/2019*

SKILLS

Java   Android   Kotlin   Spring–Boot   Flutter   C   SQL   PostgreSQL   Git

EDUCATION

BS. Computer Engineering
Istanbul University
2021 - Present
İstanbul

BS. Computer Engineering
Istanbul Arel University
(Full Tuition Scholarship, CGPA = 3.92 / 4.00)
2018-2021
İstanbul

High School
Nişantaşı High School
(84.89/100)
2013-2017
İstanbul

ACHIEVEMENTS

- With the **FolksDev** brand, I perform live broadcasts and share my knowledge on software development topics.

- I am a core team member of **Turkey Java Community**, which aims to spread information among Java users, enhance Java usage, and expand the Java user network.
